FASHION INTERIOR

NEPAL'S NO.1 FASHION & INTERIOR COLLEGE

IEC
COLLEGE OF ART & FASHION

MESSAGE FROM MANAGING DIRECTOR

Welcome to IEC, Kathmandu. It is my privilege to interact with prospective students through this brochure. We have tried our level best to make all possible information available in this brochure.

The IEC dream started almost 25 years ago at a small block of 2500sq.ft in Bagbazar with a small extremely committed and dedicated workforce who had the courage to dream about imparting education in Fashion and Interior Design. Till then, a formal education in Fashion and Interior Design was not even heard of in Nepal.

Yes, those initial days were tough; people were skeptical of our intent and its approach, but we stood by our dream and here we are today, successfully running a

full-fledged international standard college of Fashion and Interior Design in the heart of Kathmandu. Thus, today, with much pride, I can say that we are the best in the industry.

Our faculty members are seasoned professionals backed with vast experiences in their respective fields. Top fashion and Interior designers (domestics, as well as, international) come as guest speakers to help students understand and create designs that can be made public through on-campus exhibitions, as well as, off-campus avenues and also through events such as Nepal Fashion Week, the biggest fashion extravaganza in the country.

At IEC, we focus more on developing

practical skills of our students and by the time our students graduate, they are able to visualize not only fabulous concepts but also build them.

I am absolutely certain that time spent at IEC will make our students confident and proficient thereby gearing them to become hot properties in the market as per the legacy that has been perpetual since the past 25 years.

Our entire team at IEC looks forward to welcoming you to our college.

Shailaja Adhikary
Managing Director

ABOUT IEC

IEC is the first educational body to introduce formal courses in Fashion & Interior Design in Nepal. IEC School of Art & Fashion is one of the most trusted names in fashion education since the year 1997.

A proud recipient of the INTERNATIONAL GOLD QUALITY AWARD (USA) for quality education and Total Quality Management in 2003, IEC College of Art & Fashion is also the proud winner of the ASIAN TOP FASHION ORGANIZATION OF THE YEAR, in FASHION ASIA AWARD, 2016 held at China & recently winner of NEPAL BEST BRAND LEADERSHIP AWARD 2018.

IEC School has a network of multiple study centers across Kathmandu valley with a fantastic faculty of working professionals and state-of-the-art technical facilities. IEC School has been offering the best of infrastructure and educational resources throughout its

centers in Kathmandu and Bhaktapur. Till date, more than 272 Fashion Labels & 121 Interior Design Studios are run by IECians in Nepal & abroad.

IEC is also the Promoter and Organizer of Nepal Fashion Week, the biggest Fashion Extravaganza in Nepal. IEC has two campuses that are spread over 77000 sq.ft area running Bachelor's Degree in Fashion and Interior Design at Mandikatar, Kathmandu.

Established in the year 1997 under the visionary leadership of Ms. Shailaja Adhikary. IEC has emerged as the number one educational institute of Fashion and Interior Design in Nepal with an unprecedented growth rate of more than 500%. At IEC, we not only prepare our students for jobs but also make them capable of extracting the most out of various future opportunities.

VISION

The vision is to create a premiere design institution which is globally recognised & to provide better insight and understanding of education in Fashion and Interior Design as well as prepare competitive and qualified professionals for the national & international market.

MISSION

- To prepare students for professional excellence in various dimensions of design through rigorous & adaptable academic programs enriched with experiential learning and innovative partnerships in order to face global challenges.
- To increase opportunities for self - employment.
- To implement a rigorous education and evaluation system that ensures its graduates are in exclusive demand globally for their technical and professional competencies.
- To encourage active research activities and to promote a culture of innovation amongst its faculty & students.
- To promote collaborative initiatives with various key players from the industry & institutions of high standing.
- To promote the Fashion Designers & Interior Designers of Nepal.

APPROVAL & RECOGNITION

IEC College of Art & Fashion is affiliated to Limkokwing University of Creative Technology, Malaysia and duly approved by the Ministry of Education, Government of Nepal and is also recognized by Tribhuvan University.

Class Timing	: 6 days a week (7:30 AM – 2:15 PM)
Eligibility	: 10+2 or equivalent (Any Stream)
Admission Criteria	: Aptitude Test

For Diploma Degree

Batch starting Date	: Every Month
Class Timing	: 6 days a week (2 hours a day)
Batch time	: 7:00 AM – 9:00 AM / 9:00 AM – 11:00 AM : 11:00 AM to 1:00 PM / 1:00 PM to 3:00 PM
Eligibility	: Grade - 10 Pass (Any Stream)
Admission Criteria	: Perpetual drive and passion for designing

ABOUT LIMKOKWING

Limkokwing University of Creative Technology (referred to as LUCT, LKW or just Limkokwing) is a private International University with a presence across Africa, Europe and Asia. With its main campus in Malaysia, the university has over 30,000 students from more than 150 countries, studying in its 12 other campuses in Botswana, Cambodia, China, Indonesia, Lesotho, Sierra Leone, Swaziland, United Kingdom and Nepal. It is accredited by Accreditation Services for international colleges and universities (ASICU) and ranked as one of the top Universities in Malaysia by QS ranking; accredited by Malaysian Qualification Agency (MQA).

TAN SRI DATO' SRI PADUKA DR. LIMKOKWING

"Don't be a spectator. Play the game of life. It's not the strength you lack but the will. Find that will and soar."
- Tan Sri Dato' Sri Paduka Dr. Limkokwing
(President of Limkokwing University)

Tan Sri Dato' Sri Paduka Dr. Limkokwing is undoubtedly one of Malaysia's most highly decorated citizens. Whether it is in the field of communications, advertising, education or his work on global humanitarian and peacemaking campaigns, or as a trusted advisor to the government, he is a legend in modern Malaysia.

His extraordinary life journey has been closely linked with the economic and social development of Malaysia over the last four decades specifically over the last two decades whereby he has worked tirelessly and passionately to help

transform Malaysia into a hub for creativity and innovation-driven education arching towards achieving the country's goal of a high income nation by 2020

He is the President of a global university - Limkokwing University of Creative Technology with 12 campuses across 3 continents - Asia, the UK and Africa - that offers future-focused international degrees and diplomas in a wide range of design, communications, multimedia, business and IT disciplines.

The awards and accolades he has received from around the world acknowledge his extraordinary contribution to innovation in education. One of the most meaningful has been the 'Father of Innovation' in Creative Education bestowed by the Malaysian

government in 2009.

He - via his blogs and speeches - provides a riveting insight into his thinking on a range of issues from war to peace, politics and governance, designing education for the future and much more.

Over 30,000 students from more than 160 countries intermingle in a new kind of learning that encourages cross-pollination of ideas and inspires universal tolerance among the world's next generation of leaders and industry professionals. The University has received over 100 awards from 4 continents, and has been hailed as a New Vision University and a pioneer New Model University for developing countries.

INTERNATIONAL RECOGNITION & COLLABORATION

The world of fashion is an International Industry which emphasises creativity and innovation attracting talented designers to achieve success in a highly competitive world. The faculty of Fashion and Retailing at LIMKOKWING has just the right capacity one needs to be fully trained and equipped in with order to enter the international fashion and retail trade.

Students from Limkokwing have proven themselves by wowing audiences through the manner of presenting shows

in the world's fashion capitals such as Paris, London, Osaka, Jakarta and Kuala Lumpur. They are also consistently awarded as 'Best' in both national and international competitions.

With more than 200 awards in the bag for creativity and innovation in education from the United States of America, the United Kingdom, Europe, Asia and Africa over the last three years, the success of the University brand has brought the world to Malaysia and also Malaysia to the world.

The university has also garnered international recognition with its website receiving approximately 330 million hits a year from 229 countries and territories. It was recently ranked the 7th most liked University on Facebook, ahead of Cambridge University, making it the fastest Asian university moving in popularity with a weekly growth rising three times faster than that of Harvard.

PROGRAMS AT IEC

Through a unique combination of theoretical and practical concepts of design, our Diploma and Bachelor level programs prepare students to be proficient in the art and technology of designing enabling them to extract the most out of various future opportunities that they will receive with IEC degrees.

Diploma in Fashion & Marketing - 15 Months

An Intensive Course to provide students with the necessary knowledge needed to grow in the field of fashion design.

Diploma in Interior & Product Design - 15 Months

An Intensive Course to provide students with the necessary knowledge needed to grow in the field of interior design.

BA (HONS) in Fashion & Retailing - 3 Years

This program makes students adroit and experts in creative reasoning and also helps them develop practical fashion design skills.

BA in Interior Architecture - 3 Years

This program makes students adept in the art and science of Interior designing through our unique methodology, courses and procedures.

Diploma in Make up Artistry & Hair Style - 5 Weeks

This program makes students professionals/skilled in styling, bridal make-up, personal grooming, image make-over, facial and many more.

FASHION DESIGN

Our courses help students learn many aspects of fashion and designing such as draping, pattern making and sewing techniques in detail. They will also be able to put their concept into 3 dimensional perspectives with the help of CAD. Renowned designers visit our campus as guest speakers, helping students understand and create designs that can be made public through on-campus exhibition and also through Nepal Fashion Week, the biggest fashion extravaganza of the country. During the course, students will get opportunities to do internship at various leading fashion houses.

DIPLOMA IN FASHION & MARKETING 15 Months

Fashion designing has become an indispensable part of human lifestyle and fashion designers play a vital role in creating new designs of various products such as apparels, garments, textiles, footwear and jewellery for our daily use keeping in mind the latest trends in the fashion world. With advanced computerized designing facilities made available today, the fashion professionals/designers in the industry are in a better position to develop this hi-tech creative art sector.

Apparel export is one of the fastest growing industry in India and Nepal offering many creative and dynamic job opportunities. It has created a great demand for fashion designers in the trade. The course has been designed to give an overall comprehensive exposure to all aspects of designing ranging from sewing, cutting, CAD, manufacturing of garments, marketing and the list goes on.

Course Structure

- Elements & Principles of Design
- Design Idea
- Fashion Model Drawing
- Textile & Surface Ornamentation
- Construction Techniques
- Pattern Making
- Draping & Grading
- Embroidery
- Accessory Design
- Jewellery Design
- Fashion Sketching
- Computer Aided Design (CAD)
- History of Fashion
- Fashion Marketing & Merchandising
- Fashion Styling
- Fashion Event Management
- General Competency
- Make Up & Hair Design
- Industry Visit
- Project Work
- Market Survey
- Fashion shows
- Brand Presentation
- Portfolio Presentation

BA (HONS) in FASHION & RETAILING 3 Years

With fashion and textile designing industry staking its claim in the international market, fashion designing is currently one of the sought-after fields of study which offers a unique combination of a creative, fulfilling and financially rewarding career. The course structure blends cross-section of disciplinary skills, creative simulation and intensive practical application with stress placed on multimedia instructional methods which expose students to creative merchandising, marketing, CAD as well as orientation of the fashion trends through field-visits and project work presentations. The course is an encompassed study of a wide spectrum of patterns, trends, aesthetic styles and colours. Students get to learn about everything from conceptualizing the design of clothes, accessories, footwear etc. to studying the earlier and recent trends in fashion. The work of students is generally influenced by social attitudes and cultures.

For fashion, art and illustration, computer aided designing makes a dramatic facility to visualize a design concept, plot pattern and modify

sketches for improving the cut and color blend. A designer can edit colors and silhouettes, reduce hemline or drop a collar, all with the stroke of an airbrush. The computer aided course structure incorporates constant innovation and is mandatory for creative versatility. The training and course structure emphasizes on software orientation, competence and professional excellence. Career opportunities are wide. One can join as a Production Manager, Merchandising Manager, Garment Manufacturing in Technology, Illustrator, Stylist, Pattern Maker, Boutique Manager, Jewellery Designer, Footwear Designer, Fashion Photographer, Fashion Coordinator etc.

During this program, students will be able to evaluate, predict and respond to fast-changing trends and to remain ahead of the cut and curve. Understanding of structure and design principles are crucial in this industry, while you strengthen your ability in merchandising, retail and display. Develop your creative capabilities as you propel into the exciting world of global fashion.

INTERIOR DESIGN

With IEC education in Interior Design, students will get an in-depth knowledge about their field of study and also ample opportunities to collaborate and interact with leading practitioners as all classes are taken by industry professionals. Field-visits conducted during the course cover a wide range of interior spaces, including residences, hotels and restaurants, stores, historic settings, hospitals, and housing. Students not only get conceptual knowledge but also a thorough idea of several aspects through various internship programs.

DIPLOMA in INTERIOR & PRODUCT DESIGN 15 Months

The course has been designed to equip the students with the basic concepts of design mechanics and principles since beautiful interiors have become a basic fixture in home. The course enables students to do presentation drawings for any building, office, residence, hotel, restaurant, show-room or farm houses. Students not only get knowledge of the conceptual details but also a thorough idea of important aspects such as cost, overall planning and multimedia aids. After undergoing rigorous training and

attaining exposure in several areas of designing such as furniture, marble and granite work, students learn to interact with clients as designers and develop good corporate communication skills and acquire real-time industry experience. Getting employment is not a problem for any student after successful completion of the course. Large corporate houses are easy takers for such students.

BA IN INTERIOR ARCHITECTURE 3 YEARS

The Interior Design Program curriculum is a comprehensive program combining theoretical elements of interior design with practical and creative approaches to finding the solutions of functional and aesthetic design problems in the living, working and recreational human environment. Competencies developed by the program include architectural drafting, illustration and presentation skills (including presentation boards and perspective drawings), design proficiency and a working knowledge of the materials, resources and business procedures pertaining to the interior design profession. An interior designer combines knowledge with aesthetic vision in order to work with clients and other design professionals to develop design solutions that are not only safe, functional and attractive but also meet the needs of the people .

Appropriate employment is not a problem to any student after the successful completion of the course since a lot of architectural firms, interior designers, builders, promoters, furniture manufacturers and large corporate houses are easy takers for such students. In addition, one has the freedom to work as a freelance designer or open up his/her own Consultancy.

The course enables students to solve realistic problems related to interior spaces and build up sound knowledge of construction, as well as, technical issues. This will ensure that students develop an understanding of the relationship between architecture, interiors and project management.

FACILITIES **AT IEC**

GLOBAL CLASSROOM (GC)

Limkokwing University approach to learning – It collapses classroom walls and borders, nurtures ties with innovative SMEs (Small / Medium sized Enterprises) and Multinational Companies and brings all these strands of experience to our students to ensure a truly global education. By taking part in our Global University Campus Program, our students are exposed to the latest trends and practices adopted by global companies.

The Global University Campus program provides students with a short but intense learning experience. They will take part in industry workshops, cultural visits and focused-group lectures by guest speakers from specialized fields. In Global University Campus, students' experience - Industry Visits, Relevant

industry talks, Research tours - Historical & Cultural Exhibitions, Interactive Workshops, Certificates of Participation and Completion.

Specifically, the program focuses on

NETWORKING – The program provides opportunity for students to meet global industry leaders and other practitioners in their fields of specialization.

INNOVATION – The program emphasizes the importance of establishing, nurturing and developing an innovative culture within each business or organization.

CREATIVITY – The program fosters creativity and encourages students to challenge existing mind-sets through out-of-the-box thinking and creates the foresight for a progressive paradigm shift as and when the need arises in the future.

INDUSTRY WORKSHOPS & VISITS –

The program provides a balanced mix of lecturers, workshops and industry site visits.

The annual Limkokwing cultural festival is a platform for the university's students from over 150 countries to celebrate their rich cultural heritage with proud spirits and showcase their talents in ethnic song and dance performances. Themed - 'Be a Global Citizen,' the cultural festival is also aimed at helping youth to understand the world better and become active agents for multicultural-ism, peace and change. The festival attracts a culturally diverse crowd of over 10,000 people and sees the attendance of international representatives from over twenty embassies, the industry guests, local and international schools, members of the media and the general public.

CREDIT TRANSFER

Limkokwing University has exclusive and unique arrangements that enable one to spend a semester or two in a number of selected campuses located worldwide. Imagine, spending a month in Barcelona then moving over for another month in London! You can actually consider spending 6 months in 6 countries - what an experience! Translate that into your resume. Imagine how powerful an edge that would be for your career prospects. What's more, there are options that enable you to graduate with two degrees.

INTERNSHIP & JOB PLACEMENT – the practical learning

At IEC, Internship is the time when you can actually mould your ideas and follow them accordingly. The results might not always be the best, however, the more expediency you face in your learning period, the more you will get engrossed actively in whatever you do.

To some extent, we too expect our students to mould themselves; not by following the set-up work types that have been going on for ages, but by experimenting their solo creativity and become a true Interior or Fashion Designer. IEC has internship collaboration with as many as 50 fashion organisations/boutiques ranging from brands such as KASA, Swornim Studios, HUBA Stemp and many more.

There are two phase of Internship at IEC
1. In-between, 45 days internship is the

phase where students need to work in the real field with reputed organizations in the course of their study duration.

2. After the completion of the course, students are expected to have a three-months internship experience to live up to the standards of international degree that IEC is providing.

IEC is committed to make its students as productive as possible in their related fields after the completion of their Bachelors Degree. In order to fulfill this commitment, IEC continuously aims for 100% job placements for its graduates. As per the record, we are proud to flaunt that none of our graduates are free for long after graduation. Each one of our ex-students is today's qualitative product in their related field of design.

Our student's association with reputed national and international brands starts from internship.

WIFI Enabled Campus

All our campuses have a dedicated Broad Band connectivity which allows Wi-Fi access throughout the campus. This facility allows students to access uninterrupted Internet connectivity anywhere within the campus. IT resources and content are made available to the faculty and students from their desks, as well as, on an 'anywhere-anytime' basis across the campus.

Library

IEC has a modern library equipped with a wide range of quality books by renowned authors, which are updated regularly as well as a regular subscription of various journals and magazines that keep students up to date. The library service provides resources and facilities necessary for study, research, self-improvement and employment; offering

not only books but many other forms of media knowledge including printed and electronic information.

Fashion & Textile Labs

There are Well-equipped Fashion Labs keeping in line with international standards furnished with specialized equipments required for garment manufacturing .They include Cutting Tables, latest industrial Sewing Machines, Over-Lock Machines, Flat-Lock with Trimmer, Embroidery Machines and Ironing equipments.

E-Lab

E-Lab has latest computing & Designing Software including - Adobe Photoshop, CorelDraw, Auto Cad, Tuka-Tech, 3D Modeling, Animation, Multimedia and so on.

Faculties

At IEC, the teaching faculty for both fashion & interior courses are given excellent training by the "University Representatives" during moderation to provide the international standard of learning. International teachers are hired to offer better theoretical, practical and diverse knowledge on designing.

Furthermore, Fashion Designers, Interior Designers and Architects who are working in their fields are employed to teach students the updated version of the course to keep the students abreast of the best Qualitative Education. IEC, continuously makes sure its teaching department is up-to-date on the revised course structure updated by the R&D department of the University annually.

SUCCESS STORIES

IECian's own more than 272 Fashion labels & 121 Interior Design Studios in Nepal & abroad. IECian's are working in Top Garment Manufacturing & Export Units of Nepal, India, UK, USA. IECian's design 60% of the dresses of Nepal films, MNC, Banks, Airlines, Hotels and Casinos of Nepal. IECian's are working in Architectural Firms, Construction & Housing Companies.

IECian's are running Furniture & Fitting Show Rooms in different cities of Nepal.

NEPAL FASHION WEEK

Nepal Fashion Week: Simplicity is the ultimate form of sophistication and Nepal's premier Fashion Extravaganza heralds new trends and showcases- STUDENT DESIGNERS of IEC College of Art & Fashion during these four days of glitz and glamour.

The Fashion Week is a fashion industry event, lasting approximately one week, which allows fashion designers, brands or "houses" to display their latest collections in runway-shows and

enables buyers to take a look at the latest trends. Most importantly, it lets the industry know what's "in" and what's "out" for the season. The most prominent fashion-weeks are held in the four Fashion Capitals of the world – New York City, London, Milan and Paris.

However, since 2004, Nepal is also trying to fit into this form and initiative has been taken by IEC. Since then, it has not stopped. The big name associated with it is-Ms. Shailaja Adhikary.

Nepal Fashion Week is the country's largest glamour and lifestyle event and IEC is committed to make the Nepal Fashion Week a truly world class event. We have been planning initiatives to host this event more successfully with each passing year. We believe that garment designing can provide us a new source of competitive advantage. This will benefit all constituents of the Nepali Textile, Apparel and Fashion Industry.

IEC DESIGNERS' RUNWAY

IEC Designers' Runway has been a profoundly hyped phenomenon and is one of the most awaited events of the K-town since its beginning. Graduating designers from IEC College of Art & Fashion rock the runways with their collections in the event. The event is a coherent combination of glamour and creativity. It is primarily a University Assignment for the graduating students but rather, it is as grand as other fashion shows organized by IEC.

In addition to being a unique opportunity for talented fashion designing students, IEC promises that this event will also showcase the most creative make-up artists, hair-stylists and stunning Nepali models.

According to Ms. Shailaja Adhikary, the Managing Director of IEC Group, "This show is really central and significant for students to make an impressive and long lasting mark in the industry.

It surely makes them more confident about their creations as high-up or quite prominent figures of the industry will be attending the show."

IEC INTERIO SCHEMA

INTERIO SCHEMA is the sequel to the Annual Interior Exhibition being held since 2009 by the students of IEC College of Art & Fashion. The exhibition is a part of the University requirement. Although it carries practical marks, that is merely not the student's only motive to carry out this show. To make it bigger, better every year and more beneficial to everyone, this exhibition raises awareness among people about interior designing and its potential to change lifestyles. The exhibition showcases the models of up-coming interior designer from IEC

College of Art & Fashion. It also promotes Local Interior Designers among the big Corporate Society to help build their careers and in return improve the scenario of Interior Design in Nepal. The principal objective of the interior design exhibition event is to educate public about interior design principles and practices to bring awareness and recognition opportunity to fresh interior designers among various businesses and sectors for future job recommendations in this field. As this study field is new in Nepal, IEC College is providing a great

platform to boost the younger generation who are creative, innovative and are looking for a prospective career in this lucrative field of interior designing.

Features of the event

- Interior Design Model Display
- Product Design Display
- Students Paper Work Display
- Photo Booth
- Musical Performance
- Smart Furniture Display

IEC RED DAY

IEC organizes Red Day, the annual event of IEC School of Art & Fashion and IEC College of Art & Fashion, where the participants showcase their designs and concepts taking the red color as their basic theme. Students from the interior stream work for their respective teams, whereas, the students from the fashion stream work individually. Unlike other fashion events, the bonus point is that the participants make the outfit for themselves. Double bonus is that they have to walk the ramp by themselves. The idea was developed so that students could get the exposure, spike up their confidence, as well as, polish their Personality, Presentation and

Communication Skills.

Red Day was first organized in the year 2007 and the tradition has been continuing since then. It's more than a decade and the event is predicted to better its performance year by year. The occurrence is graced by the presence of Models, Celebrities, Beauty Queens and Designers each year. The event is covered by Online Media Sites, Local Newspapers and Magazines as there is no official media partner for the event. Since the event is internal, the event is choreographed by the college itself and is self-sponsored by IEC and goes by the title - IEC RED DAY.

INDUSTRIAL EXPOSURE, GUEST LECTURER & FIELD VISITS

IEC organizes the talk show named "IEC Talk – Yes, We Can" where renowned personalities are invited as guest speakers to talk about their journey of - 'Struggle to Success.' This type of event is believed to have a big positive influence on students to be their own bosses - someone with an agenda and those who can do something big or unique for themselves and for the nation, as well.

Not particularly from only the Fashion & Interior Design but also the big personalities from various fields such as: Entertainment, Ride App, Waste

Management, Shoe Factory and so on are invited to motivate students and make them believe in their talents and themselves.

Moreover, professionals from the related fields are invited as Guest Lecturers to provide classes to students so that they can avail the gist of how things work in the professional field and discover the finer nuances of the industry for themselves.

Furthermore, field visits are the major source to build up creativity. So, we often include an exciting and informative

journey in the midst of the learning process for our students to approach and obtain practical knowledge outside the college premises.

In brief, students are taken for field-visits as we believe practical knowledge is as important as the theoretical. At IEC, knowledge from an ongoing project, construction sites or heritage buildings has proven to be vital for the understanding of any topic that is needed to be understood.

INTERNSHIPS

STUDENTS' TESTIMONIALS

IEC is the place to be. I began my journey here in 2015 and can proudly say that the last three years at IEC have been a fantastic learning experience with extensive exposure to both the insides and outsides of the industry. Furthermore, IEC provides you with the best learning experience possible, as well as great faculty members who work tirelessly to shape one's future and groom us to become successful entrepreneurs.

ANUSHA DAHAL
(2015 BATCH)

Right after I finished my Bachelors in Interior Design from IEC, I landed a job at Quest Infra Pvt. Ltd. It was an honor to contribute for projects like -Nepal Army Headquarters, COAS Quarter (Sashi Bhawan) and many others while I worked there for almost 3 years. I also worked as a freelance designer for some restaurants, residential and commercial projects. IEC helped me pave my career path and to further broaden my knowledge, I am currently studying MA Interior Design in the University of East London, United Kingdom.

LASATA SHRESTHA
(2013 BATCH)

Being an IEC student has made me experience new things that I was not used to before. I was fascinated by the wonderful research opportunities one gets as a student of IEC and it enhanced my creativity to no end. All the teachers are supportive and provide just the right amount of mentorship during the programme. I would recommend the course to everyone who wishes to take up learning creative arts, for the immense exposure and self-development.

SWORNIM RAI

I thank IEC College of Arts and Fashion for putting in all the efforts to give me a successful professional life today. Encouraging me to think globally and spread my wings to take off for the land of rising sun. I had received a lot of opportunities to groom myself, thanks to my ever inspiring mentors who helped me to discover the talented part of myself. No wonder IEC college is best and renowned in Kathmandu, striving to achieve excellence; it has definitely set some benchmarks in the academia and is relentlessly trying to achieve the heights in rendering the world class education for fashion lovers.

SWETA ACHARYA
(Founder of Sweta Acharya Fashion House)

My time period at IEC was the most memorable and enlightening phase of my life, IEC provided me a platform from where I took the flight in my career. I am very thankful to my teachers for encouraging and pushing me through the hard times as well as shaping and sharpening my raw skills and knowledge.

I sincerely am grateful to IEC family for the opportunities during the time period. I believe that at IEC I only got the best of everything and successfully completed my Bachelors Degree. My goal to become a fashion designer has taken a form of extravagant reality today as I have my own brand named "ARSHIYA COUTURE" that I nurture today with the knowledge I learned in IEC.

ARSHIYA BANU

I still feel that three years at IEC was the best learning phase I could possibly ask for and to study here was the best decision I have ever made. I learned not only about the content of course syllabus but also about myself, my dreams and my vision. I did not only complete my Bachelors degree but I also learned importance of hard work, dedication and perseverance which is knowledge for a lifetime. I have always been thankful to my teachers, classmates, admin staff and MD ma'am Mrs. Shailaja Adhikary for showing the importance of exposure, opportunities and experiences. Today being called as a fashion designer and owning my own brand – "Roseus Design studio" and "Roseus Makeup and Cosmetics" gives me a sense of pride and happiness.

ROJINA PANDIT

I have always felt lucky to have studied at IEC College of Art & Fashion as it has changed my life. IEC is known to be very systematic, practical and functional designing college than any other fashion schools and colleges in Nepal. The thing I admire the most about the College is the support I received from the faculty member - either it be the administration or the teaching department and of course our Managing Director of the college.

At IEC, the more emphasis is given on practical knowledge and extra activities to make student independent. In Short, I can proudly state that IEC has prepared me to outshine with my talent in the world of fashion. Now I'm known as one of the leading fashion designer in Nepal who own a brand named 'Mu Ce'.

RASNA SHRESTHA

IEC has offered me opportunities to expand my knowledge of the fashion industry. It allowed me to gain advice from some of the best professionals. Not only was I able to attend the global classes in Malaysia, but I was then given the opportunity to work as an Intern in the industry and showcase my designs at Nepal's most extravagant fashion show - TGIF- Nepal Fashion Week, 2017. With the help of my lecturers who had all the industry experience and exposure, alongside some determination, it just went on to show that I could achieve something in which I never would have dreamed possible without the help and support of IEC. My advice for future students is to definitely grasp all the training and experiences the college has to offer and you will always achieve greater results finally from what you put in.

FD RACHAITA MAKAJOO
(Batch 2015 – 2018)

"Don't lose sight of your goal. Your countless hours of studying and sleepless nights will pay off in the end. Three and a-half years in IEC was an exciting and unforgettable experience for me. Highly qualified teachers, motivating management team, meeting interesting people, participating in practical activities were the driving force to keep me going and made me the professional that I am today. Without any doubt, I would surely give my due share of credit to IEC for all my accomplishments.

To all those aspiring Interior Designers, I strongly recommend IEC as this is the only college in Nepal that provides the core knowledge on Interior Designing.

IA SUSHOVIT RANJITKAR
(Batch 2011 – 2014)

I was absolutely delighted to pursue, career as a fashion designer after becoming Miss Nepal 2000. It's my immense pleasure to get associated with IEC in the year 2004 and the journey became my turning point; I still reminiscence our batch and those glorious one year was mesmerizing & outstandthg. We had Successfully concluded Fashion show before Graduation which was held in Fulbari Resort, Pokhara was one of the best platform for all of us in order to grow and get ready to fly for the dream. It's been Successful 18 years today. I have established myself one of the renowned female entrepreneur and Successful fashion designer in Nepal. Currently I am running UR Stylish Boutique in Kuponhole and giving my best in todays trend and fashion. The moment my customer acknowledge and admire my design and when I look them gorgeous in those outfits that's where I feel absolutely content. I am thankful to IEC and team who assisted me indeed to discover my dream and been always my friend in my journey over the years. I look forward the same in upcoming days.

IEC is one stop destination which gives shape to your dream.

USHA KHADGI
(Miss Nepal 2000)

IEC is known to provide enough platform for students while they are still studying; and being one of the ex student, I too had the privilege of learning designing in a very professional manner. And those numerous exposure had taught me importance of versatility and uniqueness. Going by this, today I tend to make sure my every work is different from my previous collection. This is one important and productive trait I learnt here that will influence all my upcoming work. My work is my pride and I will never hesitate to say my pride was polished meticulously by IEC.

Last but not least, I vouch on IEC, also because this institute makes student believe in themselves and focuses more on practical method of teaching. I believe both working individually and in a team are equally important for one's growth and if we are talking about creativity, it is more than needed and that's exactly what IEC offers.

SUSHMA SINGH
(Official Fashion Designer of Miss Nepal since 2017)

"You're not going to get very far in life based on what you already know. You're going to advance in life only by what you're going to learn after you leave here." Charlie Munger From the beginning I have had an interest in the Arts. At school I learned what was taught, as was my duty, but I knew this was not what I wanted to be doing with my life. To pursue a career which would make good use of my interests, I joined IEC College of Art and Fashion and obtained my Bachelor's degree. Then, wanting to gain more knowledge and explore the design community further, I moved to New Zealand. There I did post-graduate studies in design, specializing in interior design, at the Otago Polytechnic. A degree and a year of work experience later, I returned home, ready to use the knowledge and experience I have gained, to work in our country's Design Industry.

Currently, I am working for my father's company- Quality Kitchen Equipment Pvt. Ltd and Creative Décor Pvt. Ltd, where I can implement my knowledge of design and use my creativity.

ASHIM SATYAL

It was a great experience studying at IEC college. A memory to cherish for the entire lifetime. IEC has been the best part of my life because it has helped me find out my inner talent, enhanced my skills and given me an opportunity to showcase them. I consider IEC as the contributor of personality development as well as leadership qualities. I was a normal student aiming to be a doctor studied biology during my high school but after joining Diploma at IEC, the creativity and artwork inspired me to be a fashion designer. Again, I joined IEC college after diploma to pursue good knowledge and career in fashion. Lots of ideas and motivations were provided to make me become an outstanding successful woman in today's society by entire faculty members. IEC's efforts has made me count myself as a better professional. "Thankfull to the entire team IEC" !

TEZU

I am so grateful to have chosen IEC as my carrier guide or mentor as I have so much interest in interior designing. I got the privilege of learning designing in a very professional manner, which is assisting me in my professional work. These productive traits that I learnt here are influencing my profession. My three years at IEC have been excellent and memory to cherish for lifetime. The years spent here have been full of learning and opportunities.

With my degree and past 3 years of experiences, I successfully designed Army Headquarter and Staff's residence for Chief of Army, ALOFT Hotel, Thamel and few other different hotels and beauty studios. I am currently working for Kalpasrot Pvt.Ltd. where I am exploring my creativity in Auditorium hall, World link office and different hotel designs.

JARINA BUDDHACHARYA

I would like to acknowledge IEC College of Arts and Fashion for providing me with utmost assistance in the pursuit of my dream career. I feel very fortunate and filled with gratitude to be able to graduate from such an honorable college whereby I received guidance from well experienced instructors, was provided with well facilitated infrastructure and given plentiful practical exposures. The way in which fashion shows are held by IEC is very encouraging for students as we are allowed to explore our raw ideas regarding fashion and style and come up with our own inspirations. I am a 2020 graduate and for the last 2 years, I have been running my own fashion boutique named ANU's DESIGN which is located in my home town Butwal. I feel very privileged that IEC provided me with the essential skills and knowledge thereby enabling my dream to come true.

ANU CHHETRI

When I reflect upon my three years in IEC, I conclude that the experience not only made me better at designing, but also prepared me for unpredictable circumstances that might arise in my career. Attending classes with incredibly supportive classmates, and receiving guidance from professors who were nothing short of champions, I was challenged to discover a voice I didn't know I possessed. That voice has played a central role in my work because as a designer, it is vital to think creatively, plan vigorously, imagine limitlessly, communicate endlessly and engage and generate new designs continuously. The classes are fun and allow interaction with other students in such a manner that students can make invaluable relationships for their future fashion careers. Now I have my own brand named "Manify" and "Nnzeella Creates" which focus on Makeup & conceptual Photoshoots and accessories respectively. Additionally, I am also working for international brands as a Fashion Illustrator.

ANJILA SHRESTHA

In my 3 years as an Interior Architecture student in IEC, I learnt and grew by leaps and bounds as I was provided with in-depth information, knowledge and guidance regarding interior architecture be it theoretical or practical. During my years, I was able to partake in organizing exhibitions, develop my leadership skills and most importantly create life-long connections. I am very grateful to our MD. Shailaja maam, all the admin members and my classmates of IEC for making my degree journey that much more worthwhile. IEC always felt like home away from home for me and will always have a special place in my heart.

IEC always encouraged me to work hard and persevere no matter how many obstacles came my way. Hence, today i am a proud Interior architect and own my own company named Ziki Designs Pvt. Ltd.

RAJBI THAPA KSHETRI

Gaining acceptance into Nepal's most reputed & well known Fashion School "IEC" kicked off my passionate hope and dream of becoming a successful Fashion Designer. 'If today were the last day of my life, would I want to do what I did in IEC?' And the answer will always be a definite "Yes" with a subtle smile on my face because IEC is the place that paved the pathway to the success that I've attained thus far. Kids of my age hang out with people of similar age group which is totally normal but I have always preferred vibing with those who have a certain image & impact on the society regardless of what their age is. I always believe that in order to climb up the ladders of society, one must learn to socialise and interact with people who have a voice. During my stint in IEC and the various events I partook in, I got the opportunity to build my social circle which ended up proving beneficial upon graduation.

As a result of such carving & pampering of IEC towards their students, it has resulted in me constructing a name/image for myself which needs no effort of introduction i.e "Aarops Design". Deep love & affection to IEC & its entire team
