IEC Interio Schema VIII – DESIGNER'S HIVE

Every year since 2011 interior Exhibition is organized by the final year students of IEC College as their thesis project. 'IEC Interio Schema VIII – DESIGNER'S HIVE' is the 8th series of exhibition organized by 2016 Batch in the year 2019. Ms. Ani Choying Drolma, a well-known singer and humanitarian graced with her presence as the Chief Guest for the first day. Her presence and words filled the atmosphere with positivity, kindness and appreciation.

EXHIBITION
2019

However, the second day was full of excitement and lively due to the presence of very famous personality of Nepali film industry – Ms. Priyanka Karki and Mr. Ayushman DS Joshi. They honored the closing ceremony as Guest of Honors and encouraged student to never be ashamed in representing who they are and be confident in whatever work they do.

IEC Talk - Yes, We Can

IEC TALK is a motivational event, its 1st season held this year was one of the highlighted event praised by media. Program was about successful people sharing their share of experiences, struggles and their solo story from being no one to someone. Event like this is expected to boost up the confidence in students and motivate them to become leaders. Moreover, the event earned a lot of value in the sense of nationality as well, as one of the common topic among speakers was to make student realize Nepal is full of opportunity.

Welcome & Farewell 2019

Every year IEC welcomes new batch students with fun to give them that much needed energy to start their college life actively. Program like this is not only about fun and excitement but for hope as well - hope to excel

INTERNAL COMPETITION:

*Quiz Competition :
World Interior Designers Day*

On the occasion of World Interior Designers Day IEC Celebrates the day with Interior Quiz competition. We believe in learning through experiences so, to execute our beliefs into reality, time and again we try to create environment within the college through the programs like internal competition. Since the competition is a crucial part of their upcoming professional life, we motivate students to take part in healthy competition to boost their confidence followed by the appreciation to those who win.

**WINNER OF
INTERNAL QUIZ
COMPETITION**

CREATIVITY

Below are the Collage by 2019 Batch.

EACH ONE HOLDS A STORY - A TRUE PORTRAYAL OF ART & CREATIVITY.
BEAUTIFUL IMAGES MADE BY STUDENTS USING SCRAPPED MATERIALS.

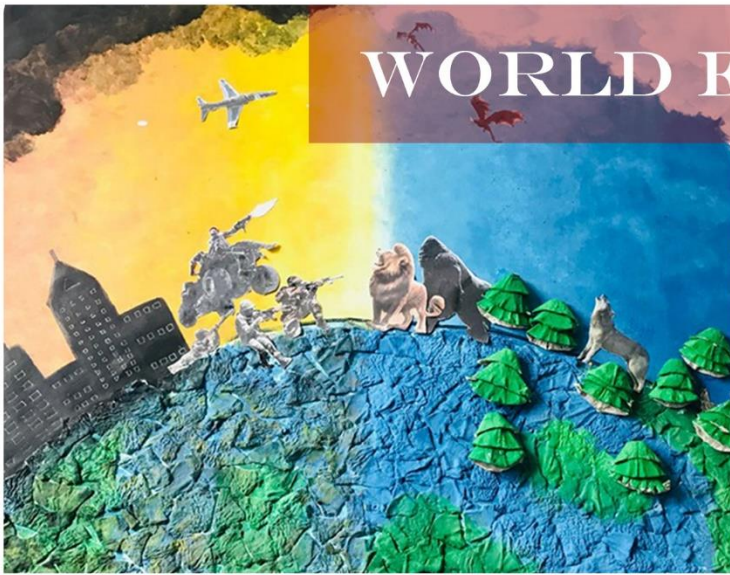

Creativity within a designer can be flourished by throwing a challenge that are not conventional. We often test our students capability to think out of the box and make them work on a scattered environment that can bring out the best of their ability to work on a fast pace and pressurrized situation.

WORLD ENVIRONMENT DAY.

PAINTING COMPETITION, THEME: NATURE

On the occasion of World environment day, we held an annual internal competition to make student realize the importance of nature, with the help of creativity. This year we confronted student with their ability to paint; yet another challenge to make them competitive and confident.

Painting competition (theme: Nature) was the highlighted internal competition, where the challenge was to create something on a chart paper that symbolizes nature and natural resources. However, Student came up with the idea that was one step ahead of the challenge; they created beautiful painting showcasing the story of the relation between human and natural resources. Carelessness of human plus their Love for nature both were portrayed beautifully in the painting in a short span of time.

Internship

-The practical learning.

Internship is the phase when you can actually mould your ideas and follow accordingly, the result might not always be the best however, the more you face in your learning period the more you will get engross actively in whatever you do. Id your ideas and follow accordingly, the result might not always be the best however, the more you face in your learning period the more you will get engross actively in whatever you do.
